

LOCK & ALERT™

FREE!

Lock & Alert was created with a simple premise: that you should be able to conveniently control access to your Equifax credit report, for life, and for free. We believe that credit responsibility is important, and Lock & Alert helps put you on track.

Why lock?

Locking your Equifax credit report is an effective way to help provide additional protection against unauthorized access and help stop identity thieves from opening new accounts in your name.

Lock your Equifax credit report to help better protect against identity theft.

Applying for credit? Simply click or swipe to unlock. Then relock again!

We'll alert you each time your Equifax credit report is locked or unlocked through Lock & Alert.

Credit lock vs. freeze

Both a lock and a security freeze can help prevent unauthorized access to your Equifax credit report. The primary difference with Lock & Alert is you click or swipe in the app to lock and unlock your credit report. Freezes require contacting Equifax online or by phone to freeze and unfreeze your report. A lock affords you on-demand access—day or night.
